- Principles of Airflow
- Comprehensive Plan & Spec Reading
- Fume and Exhaust System Design
- Introductory Skills for the Crew Leader
- Aerial Lift (Boom Lift, Scissor Lift and Forklift Certifications)

Is a Skilled Trade Career for you?

Are you mechanically inclined? Enjoy working
with your hands? Do you want to be challenged
to create something from the ground up? If you
answered **YES**... You could find an excellent career
in the HVAC field.

Top 5 Reasons for a career in HVAC

- **High Demand:** Everyone needs what the HVAC industry provides.
- **High income advancement:** Over time, you can earn triple the income you made when you started your career.
- **Job security:** This is a stable industry with careers that can't be outsourced.
- **Paid apprenticeship:** You get to earn money while you learn and advance toward your HVAC accreditation. You will have a solid career with **NO** student loan debt.
- **Unlimited career growth:** You can set your own path for success. You can be a journeyman, project manager or own your own business. The HVAC industry provides many opportunities for growth.
